

# DOWN UNDER NATIVE ORCHIDS 2022 SEEDLING CATALOGUE

*specialists in Australian native species & hybrids*

*The Home of Tropicool<sup>®</sup>™ Dendrobiums*

**Callyn Farrell, Grahame Young & Lynette Young**

Bellbird NSW 2325

**Phone:** *Callyn* – 0422304490, *Grahame* - 0466646171

**Email:** [dunoau@gmail.com](mailto:dunoau@gmail.com)

**Website:** [www.duno.net.au](http://www.duno.net.au)

## **\*PLEASE ORDER VIA EMAIL\***

- The plants listed are in limited supply, some very limited. Orders will be filled on a first to order premise.
- Prices are subject to change without notice
- All descriptions are printed as a guide only and no responsibility is taken if they are not met
- We reserve the right to withdraw or limit the sales of plants listed
- Although we provide excellent care to our flasks, no warranty is given
- This catalogue cancels all released previously
- Payment can be made by direct deposit, PayPal transaction or cash on pick up. Prices do not include freight. We no longer accept Cheques or money orders via Australia Post or any private service, as the process is time consuming and limited.
- Orders will be posted on Monday or Tuesday via the Australia Post service of your choice.
- The preparation and distribution of a catalogue is an expensive exercise. Notification regarding availability of our catalogues will be sent to all customers on our electronic database. Customers with no Internet access are required to send a stamped addressed envelope to receive a hard copy of the catalogue. If you would like to continue receiving our catalogue you can:
- Email or correspond to us enclosing a stamped addressed envelope.
- We can bring your order with us to a local society meeting, shows and fairs we attend or you may arrange to visit the nursery and collect them
- No responsibility will be taken or warranty given to orders delivered via any postage service, once the order leaves our care its delivery or quality is no longer in our control.
- The pictures seen throughout this catalogue serve as a guide only, we cannot be held responsible if the plants do not flower in accordance with these photos and in some cases the photos are as a guide only and do not represent the exact parents used.
- All prices in AUD\$
- Cane and pot sizes are as a guide and estimate only

## *Sarcochilus Species & Hybrids*

1480

*S. Fitzhart* 'Tiger Stripe' x *S. Firebird*

Using a good quality *S. Fitzhart* with a uniquely patterned red and white hybrid we are hoping for fast growing specimens that aren't afraid to flower.

**Available in 50mm @ \$8**

3074

*S. Amber* 'Bright Eyes' x *S. Fizzy Dove* 'Salmon Pink'

Searching for tropical and sunset tones in this cross. These will be compact growers and should flower on young plants. Both parents originated from David Butler.

**Available in 50mm @ \$8**

3075

*S. Fiery Twin* 'Large Red' x *S. Nicky's Twin* 'Queen Bee'

We had been struggling to get quality reds from the Butler lines to take. Thus, this cross is an attempt to increase size and shape for red hybrids.

**Available in 50mm @ \$10**

3089

*S. hartmannii* 'B.S.' HCC/AOC x *S. hartmannii* 'Brian's Choice'

The first release of our *S. hartmannii* breeding program. I believe Brian may have made this cross. However, I have seen very few around. Hence, we are offering this cross full of potential. Big flowers, good shape, good plants.

**Available in 50mm @ \$10**

**VERY LIMITED**

3090

*S. hartmannii* 'Brian's Choice' x *S. hartmannii* 'B.S.' HCC/AOC

A reverse of the above cross. Would not expect anything less than quality due to 'B.S.'. However, that may just be B... S...

**Available in 50mm @ \$10**

**VERY LIMITED**

3102

*S. Fizzy Dove* 'Salmon Pink' x *S. Amber* 'Bright Eyes'

Searching for tropical and sunset tones in this cross. These will be compact growers and should flower on young plants. Both parents originated from David Butler.

**Available in 50mm @ \$8**

---

3174

*S.* (Melba x Fiery Glow) x *S.* Maria

---

Two large flowered speckled hybrids here. We are hoping to achieve well-proportioned flowers with great shape and consistent patterning.

**Available in 50mm @ \$8**

---

F108

*S.* Melba x *S.* Donna Gaye

---

Two of our very best whites. For me there is something about a large, flat and pure white *Sarcochilus* that is so beautiful and timeless. As a judge they always seem to stand out on the show bench. These should do just that, stand out.

**Available in 50mm @ \$8**

---

F126

*Plectochilus* Harlequin 'Salmon' x *S.* (Yvette x Fitzhart)

---

A cross I made purely for colour and lots of it! We have a beautiful *Plecto*. Harlequin 'Salmon' mericlone but it's an extremely slow grower. So, a fast growing and mottled pink/purple hybrid might do the trick!

**Available in 50mm @ \$8**

---

F182

*S.* Rosella x *S.* Burgundy on Ice 'White Eye'

---

Searching for large flowers of watermelon and pink tones. The *S.* Rosella used is from the late Neville Ropers collection and 'White Eye' while not having the best shape makes up in colour and size.

**Available in 50mm @ \$8**

---

## ***Dendrobium* Section *Rhizobium* Hybrids**

2977

***D. Australian Ginger 'Wow' HCC-AD/AOC x D. Kalon Byrne-Dimos 'Newbold'***

Again, large and colourful flowers are expected. However, we are hoping to maintain the quality shape and proportioned nature of the clear yellow 'Newbold'.  
**Available in 50mm @ \$8**

2978

***D. Tweetas 'Curly Gold' x D. Wickersham 'Genesis'***

The next generation of yellow hybrids here, looking for purple tones in the labellum and full shape. We used 'Curly Gold' because of its floriferousness and also compact growth habit. 'Genesis' is of course the product of *D. Lauren 'Holly Chief' AM/AOC*  
**Available in 50mm @ \$8**

2989

***D. Harmon 'Mark' x D. Hot Coals***

Our mushroom pinkish-brown Harmon is a relatively large *Dendrobium*, its white striations and its 30mm plus wide bloom really stand out in spring. It's a very compact plant and its inflorescences are completely upright. We used *D. Hot Coals* to hopefully inject a fair amount of its brown and red colouration, just for something a bit different.  
**Available in 50mm @ \$8**

3011

***D. Tweetie 'Huge' x D. Australian Ginger 'Big Guy'***

Here we are searching for large and colourful flowers similar to *D. Tweetas*, however, this time with an extra dose of *D. fuliginosum* colouration should be improved. Den. Australian Ginger 'Big Guy' is the largest flower I have seen of this grex. *D. striolatum 'Ruffles' FCC/AOC* was used; therefore, this hybrid has a large ruffles labellum. While producing hybrids with large, ruffled labellum's is not a current priority, it could indeed add to the attractiveness of hybrids with section *Rhizobium*.  
**Available in 50mm @ \$8**

3012

***D. Tweetie 'Pie' x D. Martin 'Gold' HCC/AOC-ANOS***

*D. Martin 'Gold'* has good shape and it also has an interesting mix of green/gold tones. Here we have matched with 'Pie' to try and achieve a different colouration. Also, there is a chance we will get more than one flowering a year.  
**Available in 50mm @ \$8**

---

**3013*****D. Sharday* = *D. chordiforme* 'Tumbi' x *D. Tweetie* 'Pie'**

---

The reason I made this cross was to gain compact plants that flower in the later months of the year, this way we have section rhizobium hybrids in flower all year round. We expect quality shape and colours ranging from yellow to red.

**Available in 50mm @ \$8**

---

**3014*****D. Tweetas* = *D. Tweetie* 'Huge' x *D. striolatum* 'Ruffles' FCC/AOC**

---

We thought it was about time to remake this wonderful hybrid using the same parents Brian used in one of the original crosses. This is one of the most awarded grex's of the section. These are limited, so get in quick.

**Available in 50mm @ \$8**

---

**3015*****D. Martin* 'Gold' HCC/AOC x *D. Tweetie* 'Pie'**

---

A reverse of the above 3012, grab one of each and see which has the most colour!

**Available in 50mm @ \$8**

---

**3016*****D. Sharday* = *D. Tweetie* 'Huge' x *D. chordiforme* 'Tumbi'**

---

The same description applies from 3013, however this time we have used 'Huge'.

**Available in 50mm @ \$8**

---

**3131*****D. Martin* 'Gold' HCC/AOC x *D. Tamara* 'JD Spots'**

---

The 'beefy' *D. Martin* 'Gold' has very good shape and it also has an interesting mix of green and gold tones. So, we've paired him with our favourite *D. Tamara* to add some spotting and improve his labellum and overall shape.

**Available in 50mm @ \$8**

---

**3154*****D. Lauren Holly* 'Chief' AM/AOC x *D. Martin* 'Gold' HCC/AOC-ANOS**

---

There is no doubt that we are searching for large, shapely, floriferous golds and yellows here. Two of our awarded show winners paired together, these should be outstanding.

**Available in 50mm @ \$8**

---

---

**3155*****D. Harmon 'Mark' x D. striolatum 'Ruffles' FCC/AOC***

---

Our mushroom pinkish-brown Harmon is a relatively large *Dendrobium*, its white striations and its 30mm plus wide bloom really stand out in spring. It's a very compact plant and its inflorescences are completely upright. I thought it would be good to introduce *D. striolatum* to increase floriferousness, create compact bushy plants of pinks or maybe even greys.

**Available in 50mm @ \$8**

---

**3156*****D. Harmon 'Mark' x D. striolatum 'Neville' HCC/AOC***

---

Same as above just using 'Neville' here.

**Available in 50mm @ \$8**

---

**4050*****D. Jack Tinson 'Genesis' x D. Australia Ginger 'Wow' HCC-AD/AOC HCC/ANOS***

---

This cross should produce brown based flowers with pink and purple splashes throughout the flowers. These plants will be compact and bushy growers. Both parents are not shy in the flowering department.

**Available in 50mm @ \$8**

---

**G43*****D. Tweetas 'Neville' AM/AOC x D. Martin 'Gold' HCC/AOC***

---

*D. Tweetas 'Neville'* has excellent shape and colour, paired here with the 'beefy' *D. Martin 'Gold'*. We are looking for colourful yellows and oranges with a unique shape. There's no experimentation with this cross, just on a hunt for award quality progeny.

**Available in 50mm @ \$8**

---

## ***Dendrobium Species***

1000

***D. striolatum* 'Tassie Gold' x *D. striolatum* 'Victorian Gold'**

Everyone loves a good *D. striolatum*. These will be varying intensities of yellow and gold.

**Available in 50mm @ \$8**

2996

***D. kingianum* 'Dark Vovo' x *D. kingianum* '#29'**

Two of our best dark *D. kingianum*'s. Searching for a new batch of dark kingie's with improved shape, flower count and size.

**Available in 50mm @ \$10**

3056

***D. kingianum* 'Josephine Topps' x *D. kingianum* 'DUNO Fattie'**

This is a pretty exciting cross. Do not miss out, these will be dark pinks and reds full of shape and quality.

**Available in 50mm @ \$10**

## ***Cool Dendrobium Hybrids***

2935

***D. Delicatum* = *D. kingianum* 'Carmel's VoVo #2' x *D. spec.* 'Herbmere's Moon'**

For the first time, we have a *D. Delicatum* to offer and we think it will be pretty good. We are searching for soft pinks thanks to 'VoVo' with quality shape.

**Available in 50mm @ \$8**

3136

***D. Ray's Dream* 'Big Red' x *D. Jazz* 'Windsor Downs'**

Yes, we are looking for oranges, yes, they may be a little slow growing and yes, they should be good. *D. Jazz* 'Windsor Downs' is known for doing great things and this cross should be no exception.

**Available in 50mm @ \$10**

---

**4097*****D. Australian Artist* = *D. Cobber* 'Yes Please' x *D. spec. var. spec.* 'Windermere'**

---

We think we have a pretty good *D. Cobber* in 'Yes Please' with its floriferousness, ease of growth and positive attributes. So, we thought we would produce some fast-growing *D. Australian Artist*'s, these should be colourful.  
**Available in 50mm @ \$10**

---

### ***Tropicool Dendrobium Hybrids***

---

**2970*****D. Jonathon's Glory* 'Dark Joy' HCC/AOC x *D. Touch of Class* 'Genesis'**

---

Searching for bold, floriferous, strong growing and shapely purple hybrids in this cross. I am a strong believer in 'Dark Joy' and I think we are yet to witness its ability as a parent in modern hybridisation.  
**Available in 50mm @ \$8**

---

**2974*****D. Jonathon's Glory* 'Dark Joy' HCC/AOC x *D. Candice* 'Ace'**

---

*Candice* 'Ace' has produced some very pleasing results over the years including *D. Bergen*. Hence, we are aiming for compact plants with lots of flowers ranging from patterned creams through to pinks and purples.  
**Available in 50mm @ \$8**

---

**3134*****D. Jonathon's Glory* 'Dark Joy' HCC/AOC x *D. Jazz* 'Windsor Downs'**

---

The matching of two great orchids. Pinks and sunset tones expected here with patterning. *D. kingianum* shaped flowers and styled plants will be the theme in my opinion.  
**Available in 50mm @ \$8**

---

**3138*****D. Burgundy Bride* 'Dell' x *D. Yondi Tina* 'Goliath' FCC/AOC**

---

After catching up with David Butler, I decided to remake this cross that he had made back in 2003. You may wonder why 16 years later. Well, it seems that there are not many mature plants of this cross around and as David said "The flowers of 'Dell' had an attractive dark edging but most striking (in the mind of this tooth-picker) was the gorgeous full purple labellum which I was sure would be reproduced in its progeny".  
**Available in 50mm @ \$12**

---

---

**3140*****D. Jackaroo 'Ride Em' x D. spec. v. spec. 'Windermere'***

---

Jackaroo is Awesome x Zip. So here I am looking for Brimbank Eclipsed style hybrids. However, hoping that injection of Zip will increase vigour and overall attractiveness of the flower shape/presentation.

**Available in 50mm @ \$8**

---

**3141*****D. Gundy Sun 'Shining' x D. Candice 'Yellow Purple'***

---

'Yellow/Purple' has achieved awesome things with the D. Bergen remakes. So, I decided to introduce it to the D. Burgundy Cream line. I guess this is somewhat a stepping stone cross. It may unlock potential or... it may not. A bit like every cross haha. Anyway, I have hopes of cream/yellow flowers with vibrant pink markings.

**Available in 50mm @ \$8**

---

**3142*****D. Touch of Class 'Darkest' x D. spec. var. spec. 'Windermere'***

---

As Tropicool Dendrobium breeding become more complex, I believe it is crucial to reintroduce vigorous and easily grown hybrids or species. So, here I used the ever faithful 'Windermere' to increase flower count, strengthen the inflorescence and make the plants more robust. We may lose a little colour, but we might not.

**Available in 50mm @ \$8**

---

**3144*****D. Jonathon's Glory 'Dark Joy' HCC/AOC x D. Tyabb***

---

Here we are looking for compact plants, with great colour and shape. We expect long inflorescences above the foliage of these plants and they should flower on small plants. The *D. Tyabb* used, has substance and texture plus and a great shape.

**Available in 50mm @ \$8**

---

**3146*****D. Coffs Bonza x D. Cobber 'Yes Please'***

---

Colour plus in this cross. Plants will be compact and free growing. Purples are expected with quality shape and flower count.

**Available in 50mm @ \$8**

---

---

3149

*D. Hunter Revenge* x *D. spec. v. curv.* 'Daylight Moon' FCC/AOC

---

Something interesting here. Flowers will most likely have a cream base with sunset tone colouration. Substance should not be lacking.

**Available in 50mm @ \$8**

---

3150

*D. Candy 'Nasarka'* x *D. Candice 'Ace'*

---

Candy was kindly given to me by two great friends. So, we decided it could be put to use! Hopefully pinks and patterned creams will be produced with great flower count and labellum size.

**Available in 50mm @ \$8**

---

3162

*D. Touch of Class 'Darkest'* x *D. Kayla 'Best'*

---

This cross was made as if this touch of class can't achieve colourful hybrids than I am not sure what will. Not going to speculate on colours but shape and flower count should be good here.

**Available in 50mm @ \$10**

---

4020

*D. Monroe 'Marilyn'* x *D. Cosmic Gold 'Sandy'* FCC/AOC

---

WOW this has to be the cross of the catalogue. Thanks to all that made it possible. Expecting quality yellows with red/purple patterning and colourful labellum's. Plants will be chunky growers.

**Available in 50mm @ \$15**

---

4028

*D. Gracemere 'Moustache'* x *D. Candice 'Yellow Purple'*

---

Candice 'Yellow Purple' has bred some nice orchids. There is no hiding I like Bergen style flowers. So that's what we are expecting here. Yellows, pinks, and whites with contrasting labellum's.

**Available in 50mm @ \$12**

---

---

4038

**D. Inquest x D. Aussie Victory 'Supernatural'**

---

The second inline for cross of the catalogue.  
Expecting Binh Ba style flowers with good shape  
and intense pink/purple and fruit salad tones  
**Available in 50mm @ \$12**

---

4045

**D. Burgundy Bride 'Dell' x D. Kayla 'Best'**

---

This is one cross not to miss out on. Two plants that  
originated from Don Cruickshank here, expecting rusty  
red and brown tones, maybe some pinks and red, great  
shape and substance.  
**Available in 50mm @ \$12**

---

G72

**D. Jonathon's Glory 'Dark Joy' HCC/AOC x D. spec. 'Windy Moon'**

---

A remake of a cross that has been made a few times  
now. The results were mainly whites/creams with pink  
patterning and soft pinks/purples. Large flowers classic  
Tropicool style.  
**Available in 50mm @ \$8**

---

X56

**D. Brimbank You Beauty x D. spec. 'Maddison' AM/AOC-ANOS**

---

Two plants with great shape and plant habit here. Pinks  
are expected with texture plus. Will be good and fast  
growers in my opinion.  
**Available in 50mm @ \$8**

---

3135

**D. Jonathon's Glory 'Dark Joy' HCC/AOC x D. Jesmond Charm 'Abbey' HCC**

---

Continuing the use of 'Dark Joy' to produce compact  
plants that flower their heads off in spring. These will  
have high flower counts and range from pink/purple  
colours to yellow bases with patterning in the former  
shades in my opinion.  
**Available in 50mm @ \$8**

---

4021

**D. Greta Snow 'Genesis' x D. Candice 'Yellow Purple'**

---

Looking for very large yellow/cream flowers here with  
colourful labellum's. Plants will be larger and strong  
growers. A new generation of D. Bergen styled flowers.  
**Available in 50mm @ \$10**

---

---

4023

*D. Jackaroo 'Ride Em' x D. Midas Touch 'D3' AM/AOC*

---

Two very shapley flowers here. Hoping that 'D3' will allow some vibrant colour through from mum. Regardless, these will be plants with very good shape and presentation.

**Available in 50mm @ \$8**

---

4030

*D. Stunning 'Extremely' x D. spec. v. spec. 'Windermere'*

---

A *D. Monroe* remake here using two very superior parents. 'Extremely' is a plant with very unique colour.

**Available in 50mm @ \$10**

---

4033

*D. Stunning 'Very' x D. Hunter Bullion*

---

Expecting chunky flowers on compact plants here. In terms of colour, I would expect yellows and tropical sunset tones.

**Available in 50mm @ \$8**

---

4037

*D. Katrin's Gold x D. spec. v. spec. 'Judgadi'*

---

Crems and pale yellows are expected. Experimenting with this speciosum clone that I would describe as outstanding. Colourful labellum's are possible. Thanks to TB for the pollen.

**Available in 50mm @ \$8**

---

4039

*D. Lisa Doran 'Genesis' x D. Candice 'Yellow Purple'*

---

Mum wouldn't take the pollen of much. But couldn't say no to our trusty Candice. Expecting colour to range from white through to vibrant purple tones. These will be large flowered plants that may like a hard roof over the winter period. Labellum's should also be balanced and colourful.

**Available in 50mm @ \$10**

---

---

**4043*****D. Bergen 'Monster'* x *D. Qussie Quest 'Samson'***

---

These will be similar shaped flowers and styled plants to *D. Jayquest*. Large flowers with colours ranging from creams through to yellows with purple marking. 'Samson' is a very underutilised parent in my opinion. So, expect to see it used more in 2022.

**Available in 50mm @ \$10**

---

**4040*****D. Lone Pine 'Genesis'* x *D. Jaffa 'Genesis'***

---

On the search for large flowers of sunset and peach tones here. Jaffa should introduce a balanced shape and a plant of increased vigour. Nice to have a pollen parent with a diverse species background.

**Available in 50mm @ \$8**

---

**4140*****D. Duno Vivspot 'Jarrah'* x *D. Dunokayla 'Moon Yellow'* – *ex John Palmer***

---

A cross from the West Coast, thanks to John Palmer. We don't have many to spare. These will be plants of high shape and texture. As for colour, as we have learnt with *Dunokayla*, it is hard to say. Little or lots of colour does not bother me in this pairing!

**Available in 50mm @ \$12**

---

### ***Exotic Treasures***

---

**D1*****Epicattleya Orange Star***

---

Divisions of a very well-known and novelty *Cattleya* hybrid

**Available in 80mm @ \$12**

---

**D2*****D. Beautiful Egg***

---

Divisions of a very well-known and high-quality soft cane

**Available in 80mm @ \$12**

---

---

D3

***D. Pink Doll 'Magic'***

---

Divisions of a very well-known and high-quality soft cane  
**Available in 80mm @ \$12**

---

D4

***D. Swallow Queen***

---

Divisions of a very well-known and high-quality soft cane  
**Available in 80mm @ \$12**

---

D5

***Cymbidium Burma Star***

---

A very attractive and late flowering primary hybrid. Well worth growing to add some colour to the collection in the summer months. Very robust, easily grown plants.  
**Available in various flowering size divisions, please contact us for more information, sizes and pricing**

---

D6

***Pleurothallis restrepioides 'Dragonstone'***

---

Something a little different that will flower numerous times throughout the year with its long sprays of white and maroon flowers. We grow our specimens in very high light on the *D. speciosum* bench.  
**Available in 80mm @ \$12**

---

2932

***Cattleya tenebrosa***

---

These seedlings are from a flask given to us by Phil Spence. We expect them to be the brown form of this showy species that easy to grow.  
**Available in 80mm @ \$12**

---

BC01

***Cattleya intermedia x Laelia pumila var. coerulea***

---

An interesting cross here, I guess we are looking for shades of lilac and pink in this cross. A primary hybrid that will grow easily, while also producing fragrant and fleshy flowers.  
**Available in 80mm @ \$12**

---

---

D7

***Dendrochilum magnum* 'Darren' HCC/AOC**

---

A very attractive species, and an awarded example. Well worth growing to add some colour and fragrance to the collection in the summer months. Very robust, easily grown plants.

**Available in various flowering size divisions, please contact us for more information, sizes and pricing**

---

***Dendrobium Section Rhizobium Divisions***

---

A1

***D. Australian Lemon Pepper* 'Pam 69'**

---

Divisions of our breeding and show plant. This plant flowers around 4-5 times a year which is a massive bonus.

**Available in 100mm @ \$30**

---

A2

***D. Harmon* 'Mark'**

---

Our mushroom pinkish-brown Harmon is a relatively large Dendrobium, its white striations and its 30mm plus wide bloom really stand out in spring. It's a very compact plant and its inflorescences are completely upright.

**Available in 100mm @ \$20**

---

A3

***D. Grimesii* 'Tumbi'**

---

A primary hybrid that seems to always be in flower. Lovely white blooms packed with fragrance.

**Available in 100mm @ \$20**

---

A4

***D. Tweetas* 'Violet Lip' AM/AOC**

---

She needed a little trim. The one and only 'Violet Lip', if something is this good why not share it around. It's always good to see others breed with and show something like 'Violet Lip'.

**Available in various sizes and prices**

---

A5

***D. Oliver- Jack Freckles* 'Gerard' FCC/AOC (formerly known as Oliver Jack 'Gerard')**

---

The one and only Oliver Jack! if something is this good why not share it around. It's always good to see others breed with and show something like this.

**Available in 90mm @ \$60 ONE ONLY – FLOWERING SIZE**

---

---

A6

***D. chordiforme* 'Tumbi'**

---

A division of our best example of this species.

**Available in 80mm @ \$20**

---

A7

***D. striolatum* 'Ruffles' FCC/AOC**

---

Recently awarded an FCC and an AM earlier in its life, plus Bill Murdoch Silver '04, '05 & '08 certainly a good doer and definite show quality.

**Available in 80mm @ \$18**

---

A8

***D. striolatum* 'Tasmanian Gold'**

---

Produces masses of golden coloured blooms on upright growths, we grow ours in a mesh Port Pot & it does well.

**Available in 80mm @ \$15**

---

A9

***D. striolatum* 'Phena's Ruffles' AM/AOC**

---

One of our biggest and best, true award quality! - and it now has an AM/AOC to support that comment!

**Available in 80mm @ \$22**

---

A10

***D. striolatum* 'Yondi Yellow'**

---

A lovely fast-growing yellow example of the species, worth adding to any collection, new or established.

**Available in 80mm @ \$15**

---

A11

***D. striolatum* 'Packer's Alba'**

---

The most well-known alba example of the species. Very easy to grow, to get the best flowering possible we grow ours in quite high light.

**Available in 80mm @ \$15**

---

---

**A12**

***D. striolatum* 'Meg'**

---

The largest flower of the alba *D. striolatum*'s.

**Available in 80mm @ \$15**

---

**A13**

***D. striolatum* 'NSW Gold'**

---

A compact grower that is golden yellow and flowers earlier than all the others.

**Available in 80mm @ \$15**

---

**A14**

***D. striolatum* 'Harry Lime'**

---

A real Granny Smith green Sepaled & Petaled pleaser, throw in the pure white lip, stunning.

**Available in 80mm @ \$15**

---

**A15**

***D. striolatum* 'Neville' HCC/AOC**

---

A good and fast grower that produces a typical *D. striolatum* bloom with striations on the front of the segments as well as the back with white labellum to set it all off.

**Available in 80mm @ \$15**

---

**A16**

***D. striolatum* 'Huge' AM/AOC**

---

Again, another very high-quality line bred example of the species, we haven't really released much of this plant to date.

**Available in 80mm @ \$22**

---

**A17**

***D. Australian Ginger* 'Big Guy'**

---

A division of one of the best ginger's. Also, the biggest and is a compact grower.

**Available in 80mm @ \$20**

---

**A18**

***D. Grey Ghost* 'Too'**

---

Champion at the Wetlands in 2004 and Woolgoolga in 2015. Brother of Ira Butler Gold winner 2006, very similar in colour & presentation however a little more brown than 'grey'.

**Available in 80mm @ \$15**

---

---

A19

*D. striolatum* 'Corville' x 'Friffles'

---

Another of our quality line bred *D. striolata*'s to add to your collection, hang it up and watch it grow, we hang all ours and they are in pots, you get the best look. These flowers are massive.

**Available in 80mm @ \$15**

---

A20

*D. striolatum* 'Frills' AM/AOC

---

'Ruffles' brother, slight difference in the lip ruffling, colour similar, markings not quite as definitive. Not quite as large a flower, a good grower. Awarded an AM/AOC in 2021.

**Available in 80mm @ \$15**

---

A21

*D. striolatum* 'Southern Form'

---

A common example of the species which originated from the NSW south coast, a very good and fast grower.

**Available in 80mm @ \$15**

---
