- All prices are in AUD\$.
- Cane and pot sizes are as a guide and estimate only.

"Dockrillia" Dendrobium Section Rhizobium Hybrids

4207 D. Wickersham x D. Tamara 'JD Spots'

50mm @ \$12

Expect a range of flower presentations, from pastel pinks with fine patterning to golden-yellow blooms with striking red and purple markings on the labellum. These will be fairly large flowers and have top shape. Wickersham should help raise the flower count.

4232 D. Oliver Jack Freckles 'Oliver' x D. Tweetie 'Darkest'

50mm @ \$12

This cross promises a stunning range of colours, from yellows with subtle red/purple markings to deep, intense burgundy tones with bold markings. A remake of D. Sean Murray.

4195 D. Granma 'Ruby Lips' x D. Australian Lemon Pepper 'Pam 69'

50mm @ \$12

This cross blends the bold, red labellum of D. Granma 'Ruby Lips' with the spray can effect and high flower count of D. Australian Lemon Pepper 'Pam 69'. Expect a combination of yellow to gold flowers with vibrant red centres and markings on the petals. Plants will be compact and flower several times a year when mature.

4278 D. Tweetas 'Mustard' AM-AD/AOC x D. Wickersham 'Genesis'

50mm @ \$12

Looking for gold and yellow flowers of substantial size here on compact plants! Nothing more to it.

4276 D. Wickersham 'Genesis' x D. Hunter Alice

50mm @ \$12

This cross brings together the best features of two standout parents. D. Wickersham 'Genesis' contributes excellent flower shape and size with subtle earthy tones, while D. Hunter Alice adds vibrant, deep burgundy patterning and bold labellum colouring. Expect blooms with golden to greenish bases, overlaid with striking red and purple markings, and a distinct, colourful labellum.

4255 D. Wickersham 'Genesis' x D. Hunter Alice

50mm @ \$12

Flowers are expected to display a range of hues, from soft pinks to deep burgundy tones, with heavy spotting and a vivid, contrasting labellum. Look for well-formed blooms with vibrant patterns that stand out on the show bench. Plants should have good vigour, producing flowers that open wide and hold well on the spike.

4205 D. Granma 'Ruby Lips' x D. Martin 'Gold' AM/AOC

50mm @ \$15

Large plants

This cross promises striking gold-toned blooms with rich red accents. D. Granma 'Ruby Lips' contributes vibrant red labellums while D. Martin enhances the shape, size, and flower count. Expect yellow flowers with excellent presentation and contrasting red markings on the labellum. Plants will be vigorous, capable of producing multiple flushes of flowers throughout the year.

4253 D. Tweetas 'Cork Gold' AM/AOC x D. Hot Coals 'Best'

50mm @ \$12

Warm yellow, bronze, and red tones, with good shape, on compact, potentially floriferous plants that may flower more than once a year.

4208 D. Dunnlee – remake

50mm @ \$12

(D. Australian Ginger 'Golly' FCC/ANOS x D. Tamara 'JD Spots')

An exact remake here! These should be large flowers with good shape. Colours will range from brown to yellow with varying amount of pink and purple splashing's through the segments and labellum.

4209 D. Harmon 'Mark' x D. Hot Coals 'Best'

50mm @ \$12

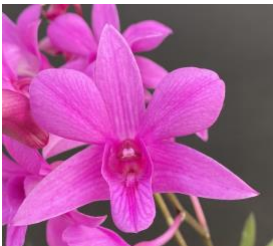

This cross should produce mushroom pink to brown-red flowers with darker markings and a contrasting labellum. I would also expect compact plants with high flower counts per inflorescence and good flowering potential.

Tropicool[®]™ Dendrobium and Cool Dendrobium Hybrids

4323 D. Phena's Charm 'Genesis' x D. spec var. spec. 'Windermere'

50mm @ \$20

This should be one of the standout crosses in the catalogue. Expect flowers in pink, light pink, and cream tones, with bigibbum shape, shapely flowers, and long inflorescences. With the potential for both autumn and spring flowering, I think this is a modern take on D. Warringah.

Dendrobium Species

LING D. linguiforme 'CB' x self

Mount @ \$25

A selfing of this very good form, by Carole Barnett, expected to produce masses of large white flowers on compact mounted plants. A nice lot for those who enjoy this species at its best. Mounted seedlings.

JEFF D. linguiforme var. nugentii 'Jeffrey' AM/AOC-ANOS x 'Tin'

Mount @ \$35

A very worthwhile line-bred cross using Jeffrey, the best form of this species and only the second line breeding with it that I am aware of. Expect very good pendulous racemes of white flowers on mounted seedlings.

Zygopetalum

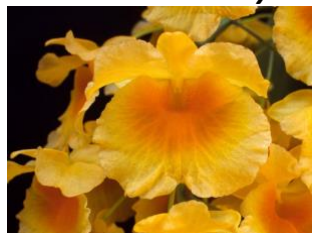

4317 *Zygoneria* Happy Meadows 'Tiger' x *Zga.* Happy Bay 'Lime Ripple' 50mm @ \$12

This cross should produce vibrant green colours, intricate markings, and a robust growth habit. The flowers will display a combination of bold white and purple lips contrasted against green petals with deep burgundy markings.

Species

4362 *D. lindleyi* 'Goldilocks' x *D. lindleyi* 'Jo Elva' AM/AOC 50mm @ \$15

A very worthwhile line-bred cross using Jo Elva, one of the best forms of this species. Expect rich golden flowers with excellent presentation on beautifully pendulous inflorescences.

Soft Cane Dendrobium

4244 *D.* Beautiful Egg x *D.* Canary Bird 50mm @ \$12

This cross was made by Justin Lee. Expect soft flowers in whites, creams, pinks, and yellows, with a pleasing pastel finish and good presentation.

4247 *D.* Isochidori 'Rainbow' x *D.* Canary Bird 50mm @ \$12

This cross was made by Justin Lee. Expect shapely flowers in pink, blush, cream, and yellow tones, with a soft pastel finish and good presentation.

4248 *D.* Canary Bird x *D.* Isochidori 'Rainbow' 50mm @ \$12

This reverse cross was also made by Justin Lee. Expect shapely flowers in blush, pink, cream, and yellow tones, with a soft pastel finish and pleasing presentation.

Bulbophyllum

4268 ***Bulbo.* Emly Siegerist x *Bulbo.* Eed**

50mm @ \$12

This cross was made by Justin Lee. Expect long, spidery flowers with striped to spotted markings and plenty of character, on vigorous plants.

4270 ***Bulbo.* Lovely Elizabeth x *Bulbo.* appendiculatum**

50mm @ \$12

This cross was made by Justin Lee. This cross should combine the vigour and flower size of Lovely Elizabeth with the elegance and tails of appendiculatum. Expect long, pendulous flowers with plenty of character.
